

# Toxic Comment Classification challenge on Kaggle.

René Ángeles  
Udacity Capstone - Machine Learning Engineering

October 15, 2019

## **1 Project's domain background**

## **2 Problem statement**

data or inputs being used for the problem

## **3 Datasets and inputs**

data or inputs being used for the problem

## **4 Solution statement**

the solution proposed for the problem given

## **5 Benchmark model**

ome simple or historical model or result to compare the defined solution to;

## **6 A set of evaluation metrics**

functional representations for how the solution can be measured;

## **7 An outline of the project design**

how the solution will be developed and results obtained
